BUILD MUSCLE

The muscle contracts 30000 times withhigh frequency and intensity, so asto train and increase muscledensity and volume

REDUCE FAT

The ultimate

contraction of muscle needsa large amount of energy supply, so thefat cells beside the muscle are alsoconsumed,leading to naturalapoptosis and effectivereduction of fatthickness

Muscle Sculpt

Exercising the abdominal muscles, shaping the vest line / exercising the hip muscles, creating the peach hips / exercising the abdominal oblique muscles, and shaping the mermaid line.
