

5 in 1

BODY SHAPING SYSTEM

- ◎ Roller mechanical massage
- ◎ Vacuum negative pressure adsorption
- ◎ Bipolar radiofrequency thermal
- ◎ Near infrared laser

Advantage

5 treatment handles

According to different treatment areas, treatment items, treatment demands, etc., it can easily achieve perfect body shaping, local slimming and weight loss, skin tightening and lifting, skin texture improvement, etc.

Perfect control system

Adsorption strength, adsorption frequency, roller speed, roller direction, red light intensity, radio frequency power, etc., can be freely adjusted to meet various treatment demands of patients.

True dual-monopolar radio frequency system

The dual-monopolar radio frequency system using Korean 6M radio frequency power supply effectively avoids epidermal burns. The radio frequency energy acts more concentratedly on the target tissue (dermis and subcutaneous tissue), resulting in less pain during treatment. , the number of treatments is significantly reduced.

Working principle

Large handle with vacuum roller+RF+IR
For large area such as thigh, buttock waist and abdomen.

Medium handle, vacuum roller+RF+IR, button control
For small area, such as arms, flanks.

Small handle, vacuum +RF
For face, forehead and neck.

Smallest handle, vacuum +RF
For eyes .

Large 40KHz cavitation handle
For all body slimming .

80 毫米的RF: 这种设备通过真空和射频技术来收紧皮肤。它适用于大面积，如大腿、臀部、腰部、腹部和手臂。它通过产生热量来刺激胶原蛋白的产生，从而收紧皮肤。它还可以用于面部、额头和颈部。它还可以用于眼部周围。它还可以用于全身塑形。它还可以用于面部、额头和颈部。它还可以用于眼部周围。它还可以用于全身塑形。

Treatment efficacy

Working principle

Pumping, relaxing, and pressing through vacuum suction

Reuse 940nm infrared to effectively reduce fat cells

Then use the roller or massage to dissolve deep fat, clear the lymph, eliminate toxins, eliminate edema

Use 10MHz RF to tighten and enhance skin after weight loss

Finally, the orange peel is faded, the curve is attractive, and the skin is smooth and smooth.

Parameters Table

Details of machine

Device Name Valeshape N8 Plus Body Shaping System	LCD screen Display:14" TFT color screen,local head 1 display screen:2.4"Local head 2 display screen:1.9
Model Number Valeshape N8	Negative pressure Pulse spoke:0.5s-7.5s 1.absolute value:80kPa-10kPa (60.8cmHg-7.6cmHg); 2)relative value:0kPa,-90kPa (15.2cmHg-68.4cmHg);
Speed of roller 0-36rpn	How the rollers work Type 4
RF 5MHz	RF energy density Max:60J/cm ³
Number of gun heads Local 1 head *1,local 2 head *1,face 3 head *1,eye 4 head,*1 and 40K dissolve fat head *1	After-sales Service Provided Free spare parts, Online support, Video technical support
Treatment area 4mmx7mm,8mmx25mm,30mmx50mm,40mmx60mm	Material ABS+Stainless Steel
Voltage AC220V/110V 50HZ/60HZ	Demension of machine 1400x600x350mm
Package Aluminum box	Warranty 2 years
