hair remover laser

Hair removal principle

Make Your Beauty Business More Easier

The laser selectively acts on the melanin in the hair follicle, destroying the hair-growing area

Natural hair loss, prevent regeneration, and achieve the purpose of hair removal

Hair removal also stimulates collagen regeneration, shrinks pores and makes skin firm and smooth

	755 nm for white skin (fine, golden hair removal);
	808 nm for yellow neutral skin (brown hair removal);
	1064 nm for black skin (black hair removal)
