

CO2

Fractional Laser

- ✓ skin rejuvenation
- ✓ remove scars
- ✓ get rid of stretch marks
- ✓ Remove acne scars
- ✓ Treatment of pigmented nevi
- ✓ private compact

CO2 FRACTIONAL LASER

- ✓ Six treatment heads
- ✓ Three treatment modes
- ✓ Professional medical beauty

Co2 fractional laser vaginal tightening

Five therapeutic heads

Equipped with scanning head * 1 / cutting head * 1 / private head * 3

- **Scanning head efficacy**

Tender skin/shrink pores/remove striae gravidarum and chloasma

- **Cutting head efficacy**

Removing sarcoma / nevus

- **Efficacy of private head**

Tighten vagina / tender vulva / tender vulva

- **Trachea**

- **Adjustable dot shape and size**

- **Shape display**

Información del Producto

1. Cirugía de rejuvenecimiento con láser 2. Cirugía de eliminación de arrugas con láser 3. Cirugía de eliminación de cicatrices con láser 4. Blefaroplastia con láser 5. Otras aplicaciones: Eliminación de nevus pigmentado, cloasmas, pecas, pigmentos de la edad, verrugas, queratosis seborreica, siringoma, acné, milia, estrías gravídica; contracción de poros; Estiramiento de la piel; Trasplante de cabello con láser; Aumento de senos con láser, etc.

Función de la máquina láser fraccional de CO2:

CO2 FRACTIONAL LASER CLEARLY DIFFERENT

BENEFITS

Shortest Pulse Duration,
Enabling High Peak Power

Improved ROI with Excellent Results in
Fewer Treatments

Unique Double Pulse Mode

Versatile Platform Enabling Multiple
Patient-Tailored Treatment Options

Supreme Feature-Set

Suitable for All Skin Types

CO2 FRACTIONAL LASER

vaginal tightening, skin resurfacing, scar removal

5 TREATMENT
HEADS

SHOW DETAILS

Pursue better in every detail

Work Theory

It concentrated thermal heating of the vaginal tissue inner layers induces collagen and elastin contraction and regeneration of these proteins in the longer term. These molecular signals activate the entire wound healing process of the body's local immune system. The treatment outcome is the complete remodeling of the vaginal tissue in addition to re-establishment of firm "young like" vaginal tissue embedded with string-like, thick and long collagen fibers.

1. Laser irradiation angle can be adjusted

2. Laser irradiation can be rotated 360 degrees

WORKING PRINCIPLE

The CO₂ laser uses a unique hand piece which tracks the CO₂ 10.6 μ m wavelength light as it passes light through its optical lens to penetrate the skin. We can control the depth of the penetration from only a few micrometers in depth (only as deep as a few sheets of paper) to much deeper with tiny thermal channels. This will also determine the length of healing, the number of treatments and the cost. Each thermal channel creates a small micro-injury but does not significantly disturb or disrupt the surrounding tissue.

Visualización de la pantalla

- * Pantalla táctil grande de color verdadero de 14 pulgadas
- * Experiencia táctil súper genial
- * 6 idiomas para su elección, se puede agregar un idioma especial
- * Se acepta el servicio OEM, como ajustar el parámetro, incluir energía/frecuencia/ancho de pulso
- * 12 tipos de patrones de salida

Pantalla táctil verdadera de 14 pulgadas, 6 tipos de piel para elegir

14 inch 4K HD touch screen

Easier system operation

Tipo de láser	Máquina vaginal con láser Co2 con láser
Longitud de onda láser	1060nm
Potencia láser	hasta 40W (opcional)
Sistema de luces	7 brazos articulados
Duración del pulso	100-5000us
Fácula	modo singular
Diámetro enfocado del haz	0,25 mm
Área focal	0,05 mm ²
Formulario de salida	Ultra Pulso, fraccional
Modo de trabajo	Carga intermitente
Modo de escaneo	Secuencia, aleatoria, paralela (conmutable)
Escaneo de formas	Triángulo/cuadrado/rectángulo/redondo/ovalado/hexágono/lineal
Área del diagrama	≤20mm*20mm
Interfaz Pantalla táctil colorida	14 pulgadas
Sistema de refrigeración	Refrigeración por aire, refrigeración por agua
Potencia de entrada	CA 230 V ± 10 %, 50 Hz/ CA 110 V ± 10 % 60 Hz
Tamaño del punto	≥0,2 mm en el foco
Tiempo de radiación / Tiempo de intervalo	0.01 1 s
Rayo de puntería	Rayo infrarrojo de 635nm
Fuente de alimentación	110/220V10% 60HZ 6A
