One minute cooling -27°C

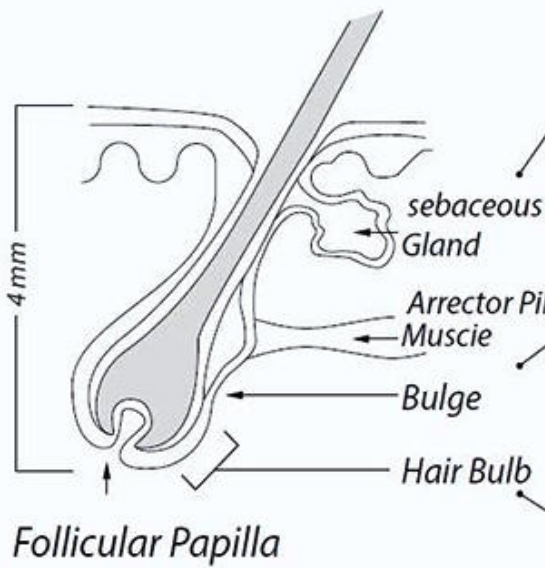

Best **TEC Cooling** system
hair remover laser

A hand holding a black laser hair removal device with a white cooling head. A circular inset shows a digital thermometer displaying -27.0°C.

350g lightweight **handle**, more ergonomic

Available in **black or white**

Four handheld barcode scanners are displayed in a row against a white background with a faint grid pattern. The first two are black, and the last two are white. Each scanner has a gold-colored sensor window at the top of its handle. They are all shown from a side profile, facing left.

755nm

More powerful energy absorption by the melanin chromophore, making it ideal for the widest range of hair types and color
- especially light-colored and thin hair

808/810nm

Deep penetration of the hair follicle with high average power with high repetition rate for fast treatment. moderate melanin absorption level making it safe for darker skin types.
ideal for treating the arms, legs, cheeks and beard.

1064nm

low melanin absorption, focused solution for darker skin types. Offers the deepest penetration of the hair follicle, embedded hair in areas as the scalp, armpit, and pubic area.

Hair removal principle

Make Your Beauty Business More Easier

The laser selectively acts on the melanin in the hair follicle, destroying the hair-growing area

Natural hair loss, prevent regeneration, and achieve the purpose of hair removal

Hair removal also stimulates collagen regeneration, shrinks pores and makes skin firm and smooth

1. The laser energy is absorbed by the melanin in the hair shaft, which is the primary target for hair removal.

2. The absorbed energy is converted into heat, which damages the hair follicle and prevents it from regrowing.

3. The heat also stimulates collagen regeneration, which helps to shrink pores and make the skin smoother.

A large group of factory workers, mostly men, are posing for a group photo in a factory setting. They are wearing white short-sleeved shirts and dark trousers. Many are holding up small green objects, possibly products or awards. The background shows factory equipment and a green floor. A text overlay on the left side of the image reads "OUR TEAM" and "There are more than 100 members of production team in our factory."
