Smayer V28 Laser Hair Removal Machine

1) Laser Hair Removal Machine SmarterHair

2) 3 Wavelengths 755nm 810nm 1064nm

3) 1600 / 1200 / 800/1000 W 40 W

808 nm laser treatment is a non-invasive procedure that targets hair follicles. The laser energy is absorbed by the melanin in the hair, which then heats and destroys the follicle. This process is repeated for each hair in the treatment area. The treatment is painless and requires no downtime. The results are long-lasting, with many patients experiencing permanent hair reduction. The treatment is suitable for all skin types and hair colors. The treatment area is typically the legs, arms, back, or chest. The treatment is performed in a series of sessions, with the number of sessions depending on the hair growth cycle. The treatment is a popular choice for those looking to reduce hair growth. The treatment is performed by a trained technician. The treatment is a safe and effective way to reduce hair growth. The treatment is a popular choice for those looking to reduce hair growth. The treatment is performed by a trained technician. The treatment is a safe and effective way to reduce hair growth.

755 (nm 808nm 1064 nm) laser treatment is a non-invasive procedure that targets hair follicles. The laser energy is absorbed by the melanin in the hair, which then heats and destroys the follicle. This process is repeated for each hair in the treatment area. The treatment is painless and requires no downtime. The results are long-lasting, with many patients experiencing permanent hair reduction. The treatment is suitable for all skin types and hair colors.
