

Exfu is committed to achieving efficient methods with low time costs.

Life is beautiful, some if there is a perfect solution, do it!

Maybe you don't have time to go to the gym, and the long process of getting your muscles into shape.

Then try our latest magnetic molding machine!

It has FDA professional approval and is even favored by fitness trainers!

Focused electromagnetic field with safe intensity to pass through the body and interact with motor neurons. Magnetic lean provides the body with severe

maximum contraction stimulation. The repeated contraction of muscle consumption metabolizes excess fat, reconstructs the internal structure, makes the production of muscle protein and muscle fiber chain, and creates higher density and muscle volume.

EXFU™ Find X Complete 360° Body Shaping Solution

Targeting Fat, Muscle,
and Body Treatments
The Advanced 5-in-1 Solution

5-in-1 independent work station, 4 high-strength applicators and 1 buttock augmentation cushion, fat reduction, shaping, lifting, buttock augmentation, all have good results.

EXFU FINDX

EXFU FindX modality offers an unprecedented solution to the muscle category. Controlled and precise energies are delivered uniquely to muscle groups via best-in-class electrical muscle stimulation. The muscles are safely activated without heating the surrounding tissue. Paired with specific pulse durations by muscle group, performance-informed smart training programs and advanced adaptive algorithms, each treatment is fully personalized and mimics a real training session that can build intensity over time. exfu enables effective and comfortable treatment programs regardless of the patients' fitness level, resulting in stronger and more defined muscle appearance.

5-in-1 independent work station, 4 high-strength applicators and 1 buttock augmentation cushion, fat reduction, shaping, lifting, buttock augmentation, all have good results.

With 4K HD screen, preset different treatment parameters for men and women, it can do personalized customized treatment data.
