How is it different?

5. EXFU is a medical laser device that can be used for various skin treatments.

1. 532: EXFU is a medical laser device that can be used for various skin treatments.

2. EXFU is a medical laser device that can be used for various skin treatments.

3. EXFU is a medical laser device that can be used for various skin treatments.

4. EXFU is a medical laser device that can be used for various skin treatments.

5. 1320: EXFU is a medical laser device that can be used for various skin treatments.

Advantage

The maximum energy, the best effect

Laboratory data shows that the laser rod reaches 2000mj.
Precise calculation of laser value
The aiming distance of the indicator light is 6-10cm

5 treatment heads

Detachable and rotatable outer wire design

532: Remove colored tattoos.

755:honeycomb head: used to remove age spots, freckles, and chloasma. little damage to skin

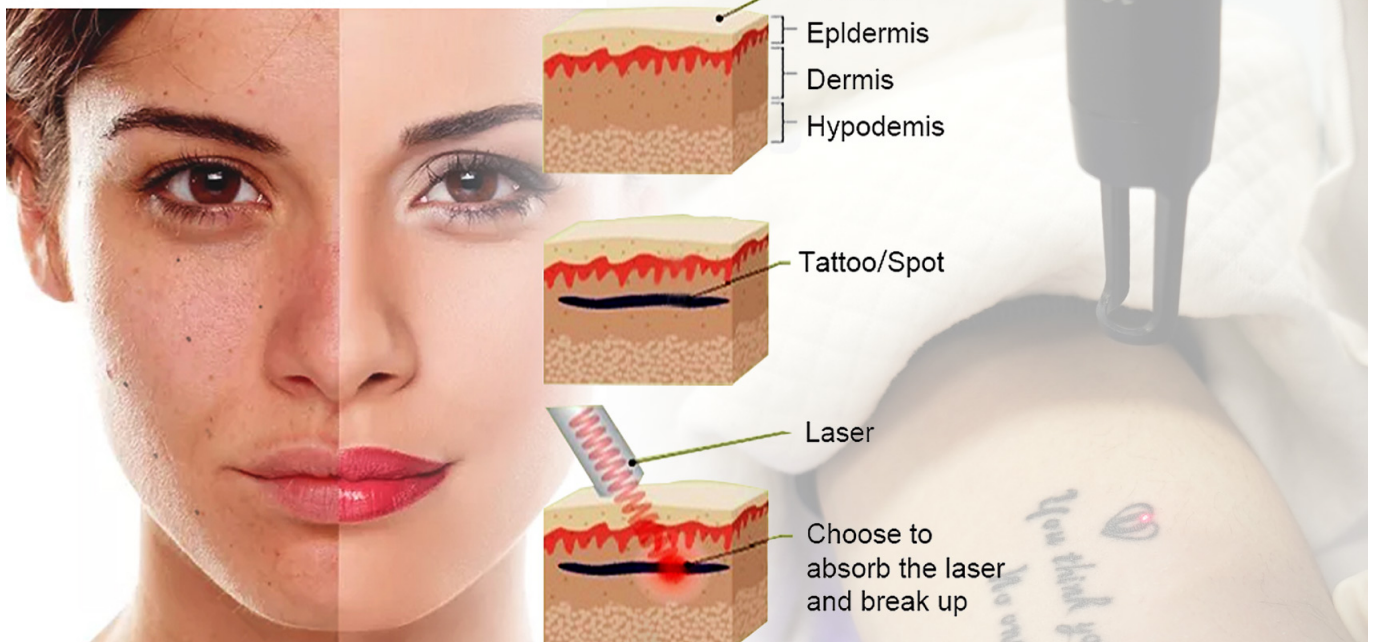

Adjustable parameter 1064: for tattoo removal, eyebrow clearing

1064: used for removing tattoos and clearing eyebrows

1320: large area treatment, large spot, fast treatment speed and good effect
