

### **How does teslasculpt work?**

\*Uses high intensity electromagnetic technology, which has the ability to induce supramaximal muscle contractions.

\*The Rapidly Changing Magnetic Field induces electric waves in the tissue where it polarizes neural membranes and governs motor units in the target muscle tissue, causing concentric contractions.

\*During treatment, the muscles are contracted to supramaximal levels. Intensive supramaximal contractions enhance release of epinephrine which triggers a cascade effect leading to supramaximal lipolysis in fat cells.

\*Meanwhile, responds with a deep remodeling of its inner structure, induces the growth of myofibrils (muscle hypertrophy), the creation of new protein strands and the growth of muscle fibers (muscle hyperplasia). The process results in increased muscle density and volume.

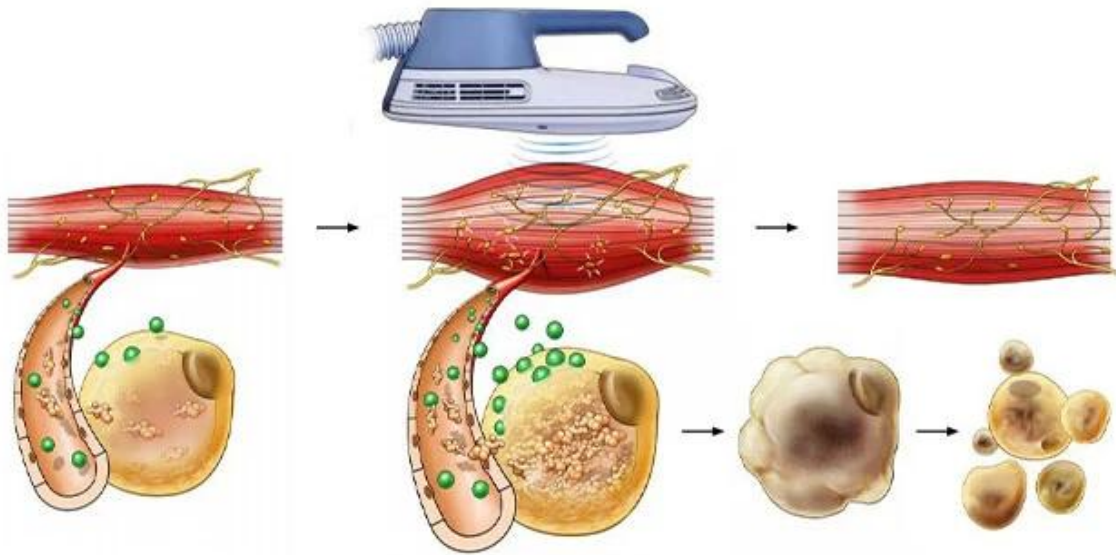

## PRINCIPLE

# HOW IT WORKS

EMSCULPT with HIFEM technology induces supramaximal muscle contractions not achievable by voluntary action. When exposed to supramaximal contractions, the muscle tissue is forced to adapt to such extreme condition.

The muscle responds with a deep remodeling of its inner structure, i.e., the growth of myofibrils (muscle hypertrophy) and creation of new protein strands and muscle fibers (muscle hyperplasia).

The process results in increased muscle density and volume.

EASY TO OPERATE

# RANDOMLY ADJUST MORE INTELLIGENT

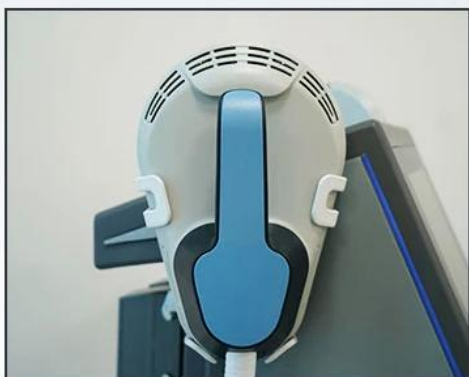

NEW APPEARANCE

REASONABLE DESIGN

# PRODUCT DETAILS

SAFE AND CONVENIENT

## HANDLE

The handles support independent and synchronous work

## POWER LOCK

Prevent the power supply from falling out, causing damage to the machine

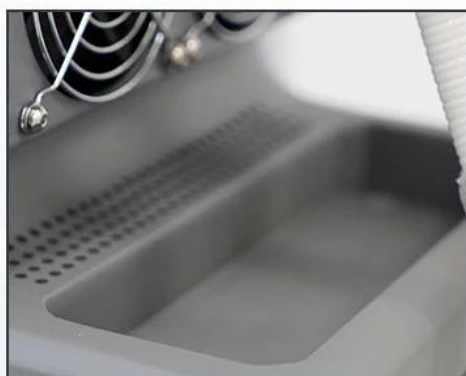

## SHELF

Put the tools you can use

## STRAP STORAGE

The handles support independent and synchronous work

# OPERATING PARTS

The location of the handle operation must be consistent with the interface selection location

Ems muscl stimulation High Intensity Electromagnetic ems muscle stimulator slimming machine

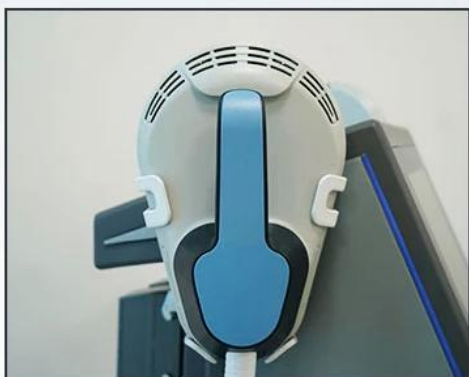

**2 magnetic handles complete solution**

Feature:Weight Loss, other, Skin Tightening, Cellulite Reduction

**One Session(30mins/treatment, 4 treatment in 2 weeks):**

1. 14 Tesla Intensity
2. 16% muscle building/19% fat reduction
3. Equivalent to 20,000 sit-ups/50,000 muscles contractions
4. Dual sculpting for same/ different person same time
5. 24/7 durability with water recycle cooling efficiency
6. Intuitive user-friendly UI W/ default & manual program
7. No operator/preparations required/Downtime

# OPERATING PARTS

The location of the handle operation must be consistent with the interface selection location

EXFU

## EXFU·FIND S EMSCULPT

**25%** more muscle,  
now all the way to your flanks

**30%** less fat,

Certification	MDRCE, ce, ISO13485, other, ISO9001, MDDCe
Feature	Weight Loss, other, Skin Tightening, Cellulite Reduction
Application	For Commercial
After-sales Service Provided	Free spare parts, Online support, Field installation, commissioning and training, Video technical support, other, Field maintenance and repair service
Feature	Weight Loss, Skin Tightening, Cellulite Reduction
Function	Body Slimming

Technology                      High Intensity Pulsed Electromagnetic  
After-sales Service Provided Free spare parts, Online support

A.ODM / OEM Service

B.Professional R&D team and quality inspection team, after-sales and sales team

C.Have CE,ISO 13485 certificate,More than 20 Patent Certificates

D.The Most Mature Semiconductor Hair Removal Experience
