## How It Works

EMSlim NEO is the world's first and only technology that uses **Radiofrequency and HIEMT** (high intensity electromagnetic field) to **eliminate fat and build muscles non-invasively**.

**30**  
minutes

**RF**

**HIEMT+**

**LESS -30% Fat**

### Fat Breakdown

In less than 4 minutes the **temperature in fat reaches** levels that cause their **permanent damage**.

### Muscle Warm-Up

The muscle temperature raises by several degrees, **similar to what a warm-up activity does before any workout**.

### Supramaximal Contraction

Muscles in the treated area **are contracted at intensities** that are **not achievable during routine exercise**.

### After Treatment

The **fat cells are slowly removed** from the body and the **strained muscle fibers initiate a growth process**. This results in **fat elimination and muscle building**.
