

DIODE LASER HAIR REMOVAL

PAINLESS HAIR REMOVAL, NO SIDE EFFECT

MORE

How Does It Work?

Through the scientific design of diode laser handle, the high-energy laser beam instantly penetrates the skin and reaches the hair follicle during treatment, output light is absorbed by melanin in the hair follicle, so destroying the hair follicle and reach permanent hair removal.

The laser pulse width is set shorter than the time that human body's feeling time , a single shot of light is over, but the human body fell painless, then could achieve the painless treatment feeling, to improve the customer's comfortable experience. Most effective laser hair removal machine.
